

HOSPITAL EMERGENCY DEPARTMENT CAPABILITY DEFINITIONS

Do not rely on this E.D. treatment capabilities chart as the sole basis for determining an appropriate care facility.

***This information was provided to HEMS, Inc. by the listed hospitals as an indication of the usual capabilities of their respective Emergency Departments. This listing is subject to change at any time, e.g., when specialty physicians and/or equipment is/is not available. This information is made available as a guideline only and does not constitute a representation or guarantee that a particular specialty will be available at a given hospital at a given time. Pursuant to EMS Service Operations Protocols, whenever a patient is transported, EMS/Pre-Hospital Care Personnel must contact HEMS (or check status information on E Bridge) for location and status of the closest appropriate (depending on priority of the patient) facility.**
